

PROVIDER ALERT

90889 Code

December 9, 2020

We are informing providers of a change in the Incedo Provider Portal. As of November 5, the 90889 code is only visible in the MH/SUD-Outpatient Discharge authorization plan when "State Funding" is chosen. Previously, this code was incorrectly placed under the Medicaid funding stream as well.

Claims associated with authorizations for 90889 entered previously under Medicaid funding will be processed without further intervention from providers.

Thank you,

Optum Maryland Team
