

Be Brain Injury Informed

Free Training for Behavioral Health Professionals

CEUs are available for social workers, psychologists and professional counselors and therapists as well as Certified Peer Specialists through the University of Maryland's School of Medicine's Mental Health Services Training Center.

The Behavioral Health Administration's Traumatic Brain Injury Partner Grant is offering customized trainings:

- **Brain injury overview** for behavioral health professionals
- **Intersection** of brain injury, mental health and substance use disorders
- **Looking for clues:** conducting overdose fatality review through a brain injury informed lens
- **Person centered practices**
- **Older adults and brain injury**
- **Harm reduction** through a brain injury informed lens
- **Transition age youth** and brain injury
- **Screening and accommodating** the symptoms of brain injury

Other special topics include the link between brain injury and suicide, intimate partner violence, brain injury and the criminal justice system, and more.

Please contact Anastasia Edmonston, TBI Project Coordinator for more information and to schedule a training: anastasia.edmonston@maryland.gov
