

Provider Alert

Optum Maryland New Provider Alert System

April 17, 2020

Effective March 28, Optum Maryland migrated to a new provider alert system to distribute provider alerts. All recent provider alerts have been distributed from the sender Optum Maryland Behavioral Health marylandprovideralerts@yourhealth-wellnessteam.com. Please be sure to add this sender to your contact list, and mark as a “safe sender,” to avoid provider alerts being blocked or sent to your spam folder.

If you have not received any recent provider alerts, check your spam folder, and implement the actions described above. If after doing this you are still not receiving provider alerts, please email marylandprovideralerts@optum.com and request to be re-added to the distribution list.

If you are receiving provider alerts from this sender, you do not need to take any further action.
